

MODABBIR ALAM

MIS Analyst | Data Analyst | SQL · Python · Business Reporting

Bangalore, India • +91-9570605231 • modabbiralam4985@gmail.com • [linkedin.com/in/modabbir-alam](https://www.linkedin.com/in/modabbir-alam)

PROFESSIONAL SUMMARY

MIS Analyst with 4+ years at BlackBuck (Zinka Logistics), one of India's leading digital trucking platforms, working closely with the VP of Sales and presenting insights up to the CEO. Supports Annual Operating Plan (AOP), sets monthly S&OP sales targets for a 229-member sales force, builds the Monthly Business Review, and drives data-led operational changes — including a location-level analysis that cut indents needed per placement from 12 to 8. Strong in SQL on AWS Athena/Trino, Python ETL, Metabase, Looker Studio and Google Apps Script, with AI tools used daily to speed up analysis and automation.

CORE SKILLS

SQL & Data: AWS Athena / Trino, SQL Server, CTEs, window functions, cohort & funnel analysis, query debugging, data modelling

BI & Visualisation: Metabase, Looker Studio, Power BI, Google Sheets / Excel (advanced formulas, pivots), KPI dashboards & leaderboards

Python & Automation: Python (Pandas, NumPy, Seaborn), ETL pipelines (Google Sheets API → S3 → Athena), Google Apps Script (web apps, forms, scheduled refresh)

AI Tools: Daily use of Gen-AI assistants for SQL drafting & debugging, script automation and faster analysis

Business: AOP, S&OP, Monthly Business Review, target planning, sales performance & incentive MIS, attendance management

PROFESSIONAL EXPERIENCE

BlackBuck (Zinka Logistics Solutions Ltd.)

Bangalore | 2022 – Present

MIS Analyst (Oct 2023 – Present) • Senior Executive (2022 – Oct 2023)

Business Planning & Leadership Reporting

- **Monthly Business Review:** Prepare the MBR presented to the CEO, consolidating sales, placement and quality metrics into a single business narrative.
- **AOP & S&OP:** Support Annual Operating Plan preparation and own S&OP — setting monthly sales targets for a 229-member field sales org (180 CROs, 35 TSLs, 12 ASMs, 2 ZSHs) across 4 cities, and planning quarterly data and targets in line with business requirements.
- **VP reporting:** Work closely with the VP of Sales, delivering weekly and fortnightly performance packs that drive team reviews and course-corrections.
- **Placement fulfilment:** Analysed prime loading/unloading locations and re-prioritised them, cutting indents needed per placement from 12 to 8 (~33% fewer) and lifting indent-to-placement conversion from ~8% to ~12.5%.
- **Attendance & policy:** Manage field-team attendance and prepare CRO policy decks (PIP, Performance Watch, Incentive Hunter, Handover, LOP) with HR and Payroll.

Analytics, Data Engineering & Automation

- **Cohort analytics:** Built complex Trino/Athena SQL cohort queries on CRO placement behaviour with order-level UPI / Late-Advance / Short-Advance / Broker quality flags, rolled up to customer-level MTD and weekly views.
- **Data accuracy:** Fixed fan-out duplication and DATE() truncation bugs that were miscounting same-day 6th+ placements, restoring trust in placement-rank and M0-M2 metrics.
- **ETL pipelines:** Own Python pipelines loading Google Sheets data into Athena fact tables with S3-based deduplication; moved credentials out of code.
- **Sales tools:** Built Apps Script leaderboard web apps with role-based access, BO + SME rankings and live refresh, plus an 8-tab live headcount MIS for field teams in 4 cities.
- **Process automation:** Redesigned CRO indent filling across Bangalore, Chennai, Hyderabad and Mumbai into master-sheet-driven forms with cascading dropdowns.

Bosch Chassis Systems India Pvt. Ltd.

2017 – 2019

Technician Trainee Engineer

PROJECTS

Netflix Content Analysis

Python · Pandas

- Cleaned and analysed the Netflix titles dataset to surface trends in content type, genre, country and release patterns.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science and Engineering — College of Engineering Bhubaneswar

2024
